Exploring Culture in the Great Cities of Asia
Fall 2008••Asian Studies 180/History 180
Class time: MWF 10-10:50 AM, KRJH 201

Lisa Trivedi
Office: Elihu Root Houe 218; ext. 4980; Office Hours: Wednesday 3-4:30 PM and by appointment

Thomas Wilson
Office: Elihu Root 219; ext. 4236; Office Hours: Monday 3:30-4:30 PM and by appointment

Textbook:

Texts for purchase:

Grades:
1st writing assignment 15%  class participation 15%
2nd writing assignment 15%  quizzes 15%
3rd writing assignment 20%
4th writing assignment 20%

The Rules:
Class attendance is required. You may miss up to two classes without penalty to your final grade; it will be lowered by 1/3 of a grade for each additional class missed. We expect that your written work will be completed on time and according to the directions specified. A late paper will be marked down 1/3 of a grade for each day it is late. If you are experiencing any difficulty with your course work, we urge you to speak with us immediately. It is your responsibility to speak with us about any problems that you are having prior to a deadline; no extensions are granted on the day before or the day an assignment is due. In order to earn a passing grade in this course you must complete the four writing assignments and three quizzes.

Class Schedule:
8/29 Introduction

9/1 Ancient Religions: the Vedic era in India: Origin myths

Paper #4 Due Monday, December 15th at 12 noon. Please submit your paper electronically to your instructor. Make sure that the paper is in word (.doc) and named “yourlastname4.doc”.

The Writing Assignments

NO OUTSIDE SOURCES MAY BE USED
NO EXTENSIONS GRANTED WITHIN 24 HOURS OF DEADLINES

Writing Assignment #1:
Drawing from the primary ancient Indian and Chinese sources listed below, examine the central role of ritual in ruling. Be sure to include specific examples of religious thought and practice in your analysis.

India: “Creation,” The Rig Veda, “Creation in the Brâhmanas and Upanisads,” Hindu Myths, and “The Horse Sacrifice,” The Rig Veda

Note: Be sure to focus your attention on ancient India and China, rather than the ways that the ideas in these texts differ from or are similar to ideas found in the West.

Essays should be about 4 pages, double-spaced and printed with a standard twelve-point font. Make sure to provide complete citations for your evidence. Each student must discuss their drafts with a Writing Center tutor. Papers without Writing Center forms demonstrating that a conference was completed will not be accepted.

Writing Assignment #2:

Writing Assignment #3:
While Buddhism plays a major role in The Monk and Monkey, Daoist and Confucian elements are pervasive throughout the story. Use your knowledge of Asia’s rich religious/philosophical traditions to examine the relations among Buddhist, Daoist, and Confucian ideas, practices, themes, etc. Successful essays will make effective use of the variety of class materials available to you, including class lectures and discussion, textbook readings, and primary source readings from this and earlier parts of the course.

Papers should be about 4 pages in length. They should be typed and double-spaced in a standard 12-point font. Use complete footnotes to cite relevant sources throughout your paper. Avoid plot summary; focus on what the text tells us about China at the time the book was written.

Writing Assignment #4:
Fictional literature like The Tale of Genji can be used as a primary source to gain insight into ancient Japan in at least two ways: (1) Fiction can be used as a window onto other places and times by viewing the story’s events and characters as historically representative of the time and the people who lived at the time the story was written. Consider, for example, how the ruler, courtiers, women of noble rank, or servants represent certain kinds of people one might encounter at the time. (2) Fiction can also be used as a means to explore how the author understood the world in which she or he lived. In this case, The Tale of Genji constitutes Lady Murasaki’s personal testimony about life among Heian courtiers; a document that
expresses her own understanding of religious rituals and customs, the ways that emperors and courtiers actually exercised power in and especially out of court, consensus and conflict over moral values, etc.

Use these approaches to formulate a thesis about Heian Japan on the basis of The Tale of Genji. For example, you might draw evidence from the novel to discuss the nature of Heian politics (the aristocratic life at court, the power wielded by the emperor, the process through which an heir is selected, etc.), religious values or activities of the period (particularly Buddhism, the use of natural imagery, the role of dreams in how characters understood their lives), or gender (duties of the husband and wife, status of sex, uses of sexual innuendo in dialogue, language, expression of inner sentiments, etc.). When formulating your ideas, please bear in mind an important theme of the course: the integration of religious practice and ideas, ruling, and social status.

**Avoid plot summary; focus on what the text tells us about Japan at the time the book was written. Make sure that you offer concrete examples of the characteristics of Heian culture that can be identified in the novel.**

Papers should be about 4 pages in length, double-spaced and in a standard font. All papers should include complete citations in either footnote or endnote form.

**More On Writing Assignments**

**Grading Criteria:** A “good” (i.e., B) essay is clearly written and logically sound. An “excellent” (i.e., A) essay presents a compelling argument for a thoughtful and imaginatively interpretation of the sources that is evident only upon thoroughly re-reading the sources and careful reflection upon the problems raised. A compelling argument requires (1) a clear formulation of a problem, (2) analysis of the texts under scrutiny, and (3) a scrupulous use and citation of supporting evidence from the texts. A thoughtful interpretation requires digging beneath the surface meaning of the texts to a subtler understanding of their connections to broader (social, political, etc.) contexts. A “prose” grade of C– (i.e., slightly less than “satisfactory”) is assigned to grammatically correct but informal and stylistically weak writing; and D+ or below for repeated infractions of basic rules of writing, depending upon frequency and egregiousness of such errors.

**Effective Writing:** An important part of a writing assignment is to formulate an interesting and original topic. Do not simply summarize the content of your sources. Present an argument or a thesis based on your own interpretation of the sources. Be sure to develop your ideas fully. Keep in mind that most important, central ideas of the essay should be clearly stated, explicated, and documented. Do not assume that any major point you want to make is self-evident; it is always important to make explicit the connection between your argument and the evidence you cite. A well written paper requires thorough reading and precise written expression. A thorough understanding of your sources depends upon close reading, careful reflection, and re-reading. Precise written expression requires writing, editing, and rewriting.

**Documentation:** You must cite all sources of information that you use, even if you do not quote a source directly in your essay. If you do not cite the sources from which you derive information, or on which you base your description of an event, or interpretation of an idea, etc., the implication is that the idea is your own, or that it is based on your own primary research. Failure to cite such sources is plagiarism. Be sure to cite exact page numbers of any source from which you quote directly, although it is rarely necessary to cite the same source more than once in the same paragraph. Use proper citation forms (i.e., footnotes, end notes, in-text parenthetical notes) as described in the Hamilton College Style Sheet. Be consistent in the citation format used.
**Revision Policy:** Because this is “writing intensive” course, students are expected to revise the first writing assignment in consultation with their instructor. Students who receive grades of B+ or higher are exempted. Students who receive grades of C– or below on subsequent assignments are expected to revise their essays.
Instructors will use this form when grading your essays to help identify precisely your writing’s strengths and weaknesses. Please use this as a guide when writing and revising your essays. Students working with a writing tutor are encouraged to show this form to their tutors.

_________ **Mechanics** (grammar, spelling, punctuation, citation, organization)
  Are there any spelling, punctuation, or grammatical errors?
  Is the essay clearly and effectively organized?
  Are sources quoted accurately and cited properly in footnotes and the bibliography?

_________ **Written Expression** (prose, eloquence, interpretation, documentation)
  Is the evidence (e.g., quoted passages, summaries of texts) effectively connected to the argument?
  Is the prose clearly and persuasively written?
  Are the ideas expressed articulately?
  How compelling is the interpretation of the evidence?

_________ **Argument** (thesis, argument, evidence, analysis, documentation)
  Is the thesis clearly stated?
  Is the thesis supported by a compelling argument and the most pertinent evidence?
  How persuasively are the (primary) sources analyzed?
  Is the evidence used effectively?
  Are ideas fully developed?
